- 17. Troubleshooting
- 18. Conclusion

1. Introduction

This manual explains how to use the LSC mobile application from the first screen to the main study features. It follows the mobile flow starting from the Welcome page, then account access, and then the core app pages used after signing in.

Only mobile screenshots are used in this version so that the manual matches the mobile app experience.

2. Welcome Page

Purpose: The Welcome page is the first screen users see when opening the app.

How to use this screen

1. Open the LSC mobile app.
2. Read the short introduction on the welcome screen.
3. Tap Create an account if you are a new user.
4. Tap Sign in if you already have an account.
5. Tap Help if you need assistance before signing in.

Expected result

- The user can move to registration, sign in, or help from this screen.

Screenshot

2. Welcome Page screen

3. Create an Account

Purpose: New users can start registration from the Welcome page.

How to use this screen

6. On the Welcome screen, tap Create an account.
7. Complete the registration form when it opens.
8. Enter the required details such as your name, email address and password.
9. Follow any instructions shown on the registration form.
10. Submit the form to create your account.

Expected result

- A new account is created and the user can continue to sign in.

Screenshot

3. Create an Account screen

4. Sign In

Purpose: Existing users can sign in with an email address and password.

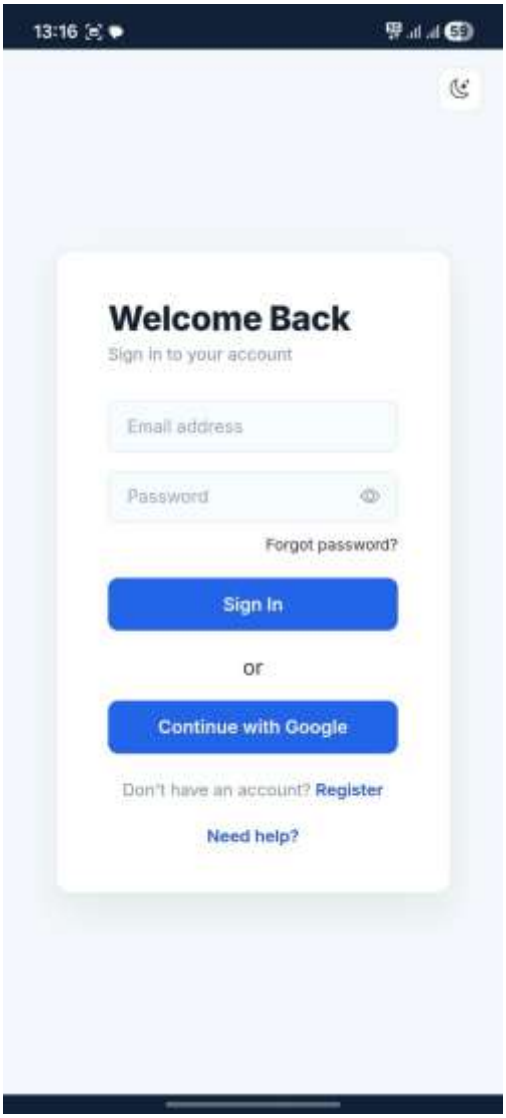

How to use this screen

11. Open the Sign in screen.
12. Enter your email address.
13. Enter your password.
14. If needed, use the eye icon to show or hide the password.
15. Tap Sign In to open your account.
16. If you forgot your password, tap Forgot password?.
17. If you do not have an account yet, tap Register.

Expected result

- Successful sign in opens the dashboard.

Screenshot

4. Sign In screen

5. Continue with Google (Optional)

Purpose: Users can also sign in using a Google account.

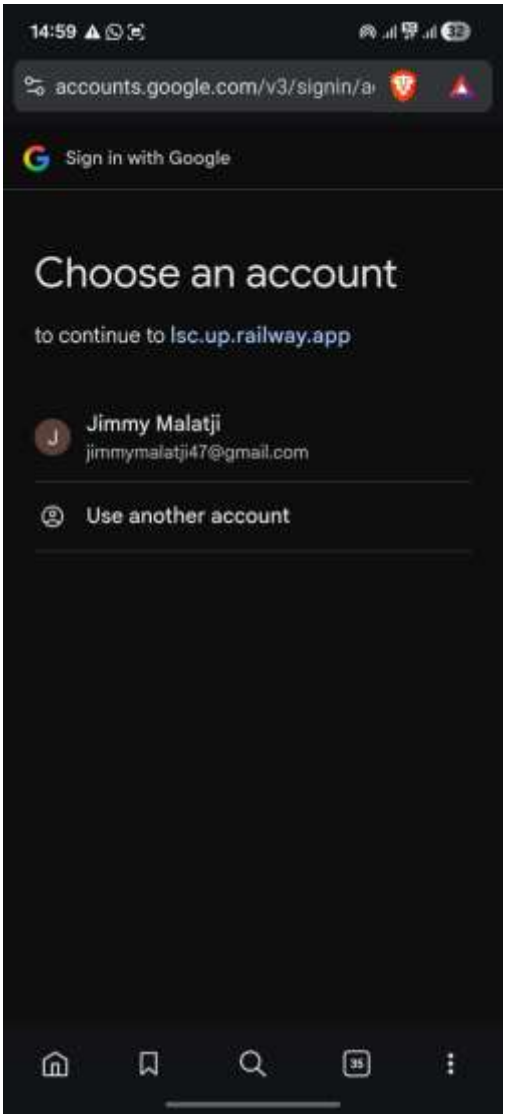

How to use this screen

18. On the Sign in screen, tap Continue with Google.
19. When the Google account chooser opens, select an existing account or choose Use another account.
20. Complete the Google sign-in process if prompted.
21. Wait for the app to return you to LSC.

Expected result

- The user signs in to the app using Google.

Screenshot

5. Continue with Google (Optional) screen

6. Dashboard / Home

Purpose: The Dashboard is the main landing page after signing in.

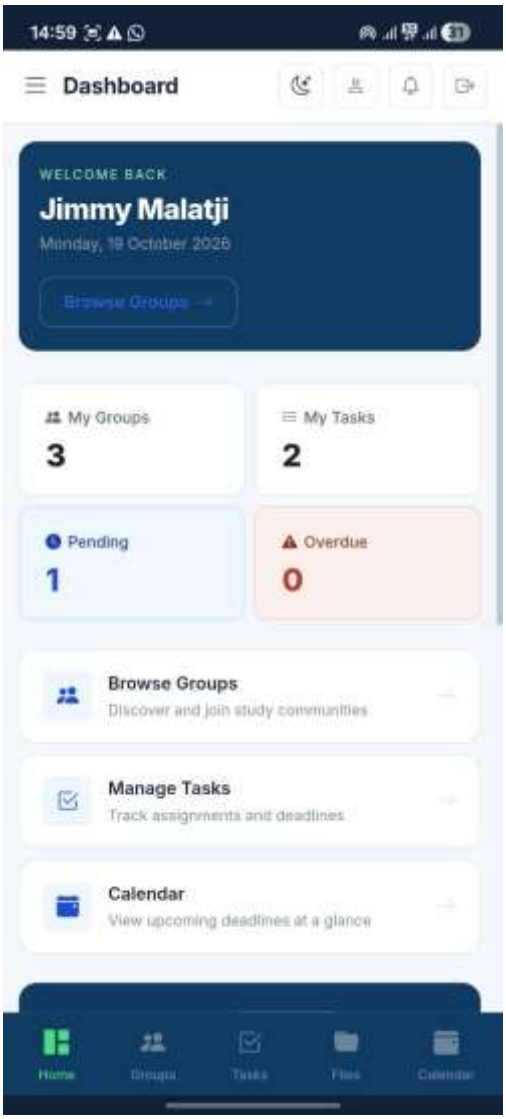

How to use this screen

22. Review the welcome card at the top of the screen.
23. Check the summary cards for My Groups, My Tasks, Pending and Overdue.
24. Tap Browse Groups to go to the groups page.
25. Tap Manage Tasks to go to the tasks page.
26. Tap Calendar to go to the calendar page.
27. Use the bottom navigation bar to switch between main pages.

Expected result

- The dashboard gives a quick summary of current activity and shortcuts to key pages.

Screenshot

6. Dashboard / Home screen

7. Study Groups

Purpose: The Study Groups page is used to browse joined groups and available groups.

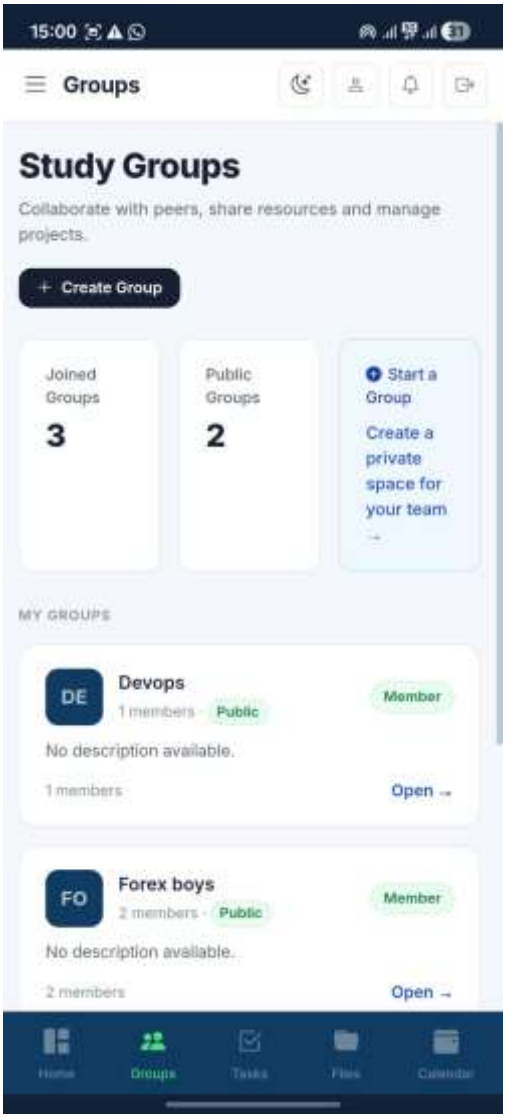

How to use this screen

28. Tap Groups on the bottom navigation bar.
29. Review the Joined Groups and Public Groups counts.
30. Scroll through My Groups to see the groups you belong to.
31. Tap Open on a group card to enter that group.
32. Tap Create Group if you want to create a new group.

Expected result

- The user can browse existing groups or start a new one.

Screenshot

7. Study Groups screen

8. Create a New Group

Purpose: The Create New Group dialog is used to create a study group.

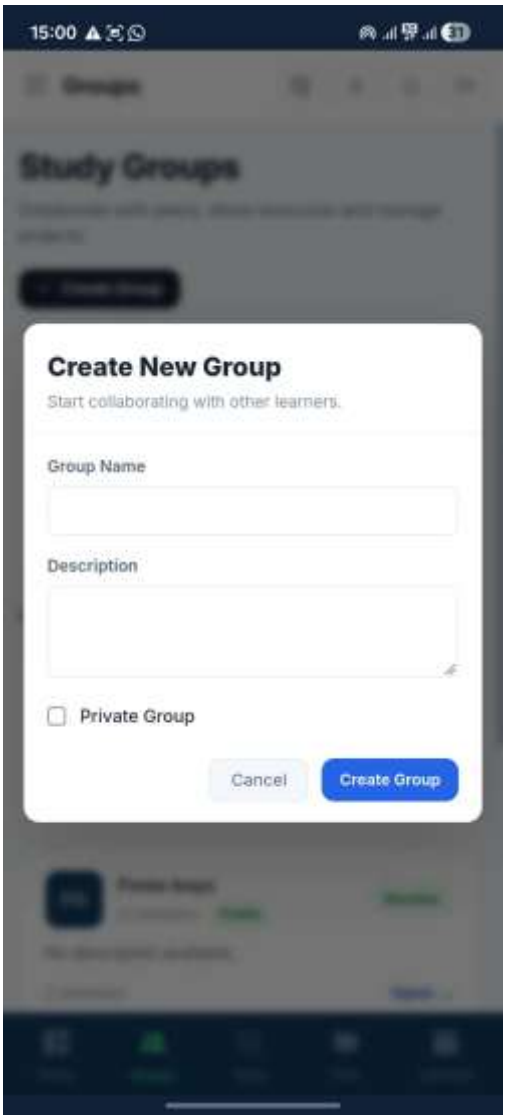

How to use this screen

33. From the Study Groups page, tap Create Group.
34. In the pop-up window, type the Group Name.
35. Enter a Description if needed.
36. Select Private Group if you want the group to be private.
37. Tap Create Group to save the new group.
38. Tap Cancel if you do not want to continue.

Expected result

- A new group is created and appears in your groups list.

Screenshot

8. Create a New Group screen

9. Open a Group Workspace

Purpose: The Group Workspace opens when a user selects a group.

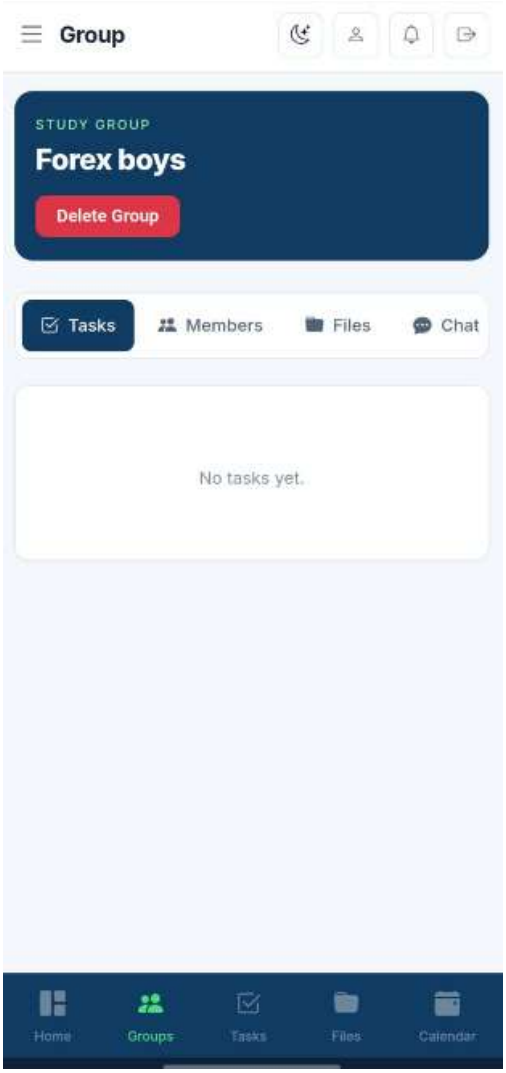

How to use this screen

39. From the Study Groups page, tap Open on a group card.
40. Review the group title and the header section.
41. Use the tabs to move between Tasks, Members, Files and Chat.
42. Stay on the Tasks tab to review tasks for that group.

Expected result

- The selected group workspace opens and the user can work inside the group.

Screenshot

9. Open a Group Workspace screen

10. Invite People to a Group

Purpose: Group owners or authorised users can invite more members.

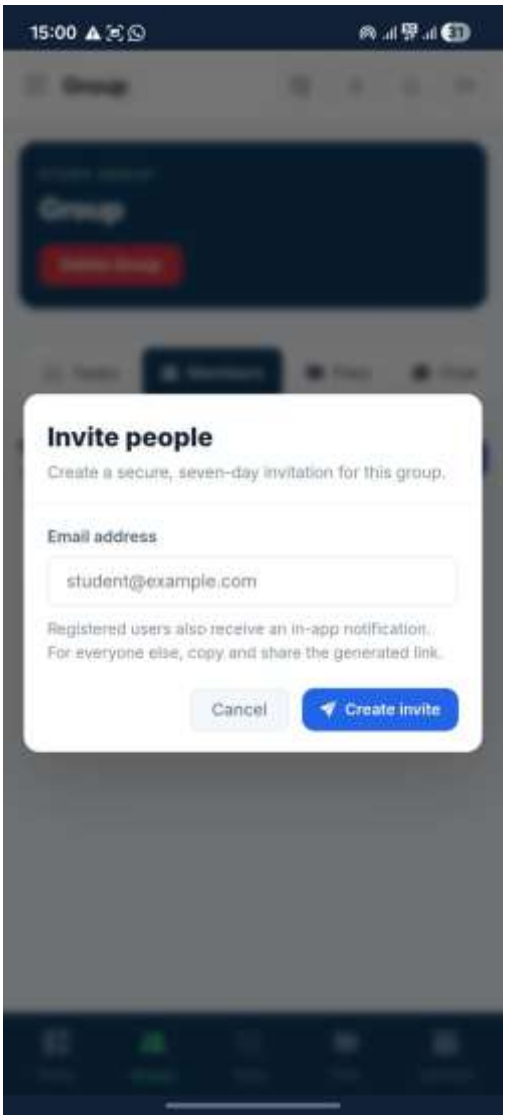

How to use this screen

43. Open a group workspace.
44. Go to the area where the invite action is available.
45. Tap Invite people.
46. Enter the email address of the person you want to invite.
47. Tap Create invite to send the invitation.
48. Tap Cancel if you want to close the invitation window.

Expected result

- The invited user receives an invitation to join the group.

Screenshot

10. Invite People to a Group screen

11. Group Chat

Purpose: The Chat tab lets group members communicate inside the group.

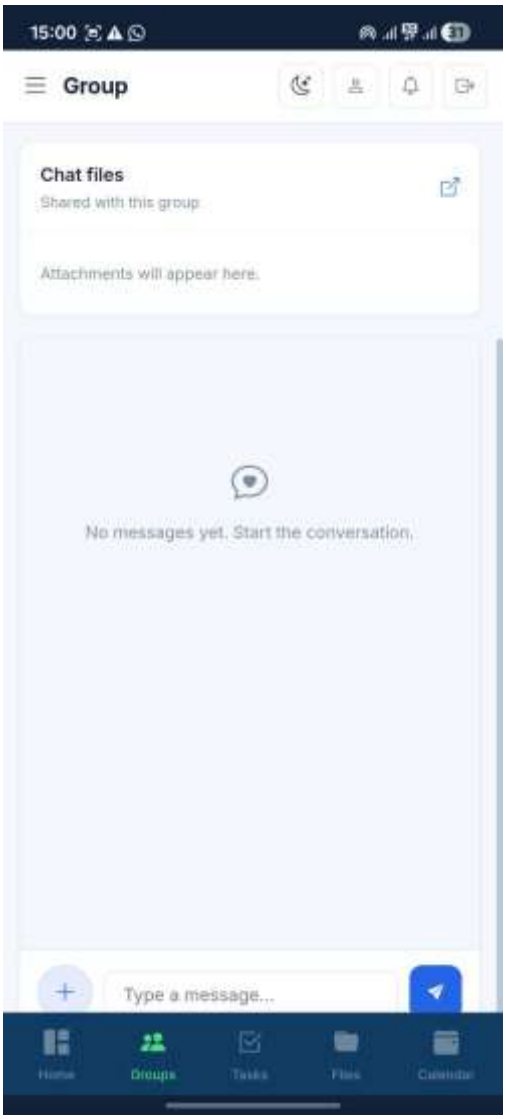

How to use this screen

49. Open a group workspace.
50. Tap the Chat tab.
51. Review the Chat files area at the top if shared items exist.
52. Type your message into the message field at the bottom.
53. Tap the send button to post the message.
54. Use the plus button if the app provides extra options or attachments.

Expected result

- Messages are posted in the group chat area so members can communicate.

Screenshot

11. Group Chat screen

12. My Tasks

Purpose: The Tasks page is used to manage assignments and deadlines.

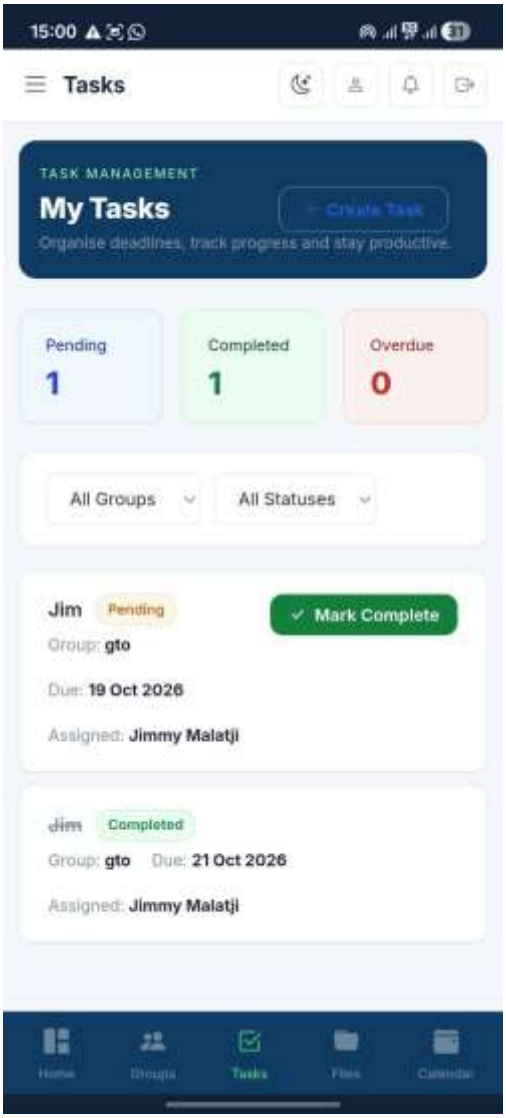

How to use this screen

55. Tap Tasks on the bottom navigation bar.
56. Review the summary boxes for Pending, Completed and Overdue.
57. Use the All Groups filter to filter tasks by group.
58. Use the All Statuses filter to filter tasks by status.
59. Review each task card to see the group, due date and assigned user.
60. Tap Mark Complete when a task has been completed.
61. Tap Create Task if you want to add a new task.

Expected result

- The user can track progress and update tasks from one page.

Screenshot

12. My Tasks screen

13. Files / File Library

Purpose: The Files page is used to upload and manage study files.

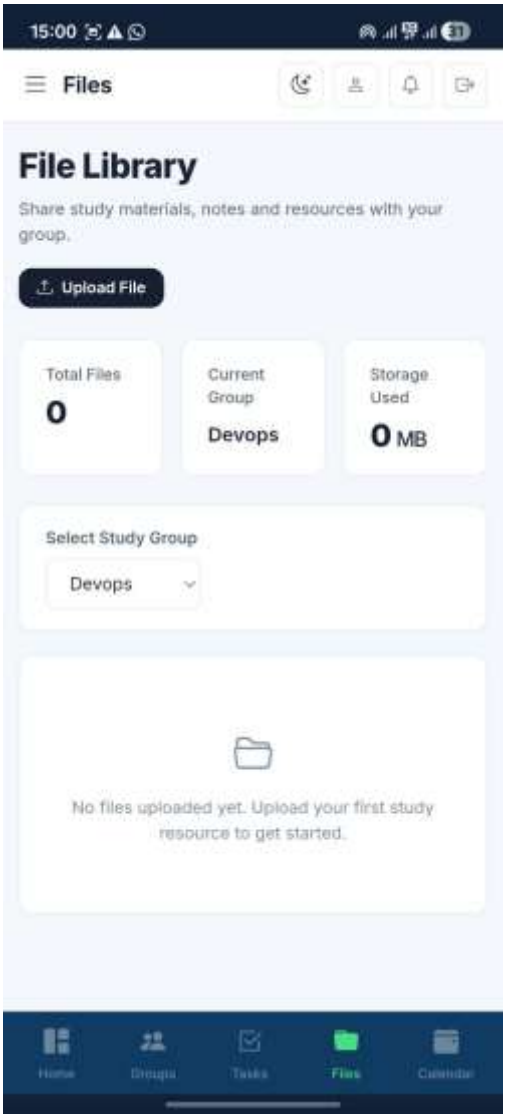

How to use this screen

62. Tap Files on the bottom navigation bar.
63. Review the summary cards such as Total Files, Current Group and Storage Used.
64. If needed, choose a group from the Select Study Group drop-down list.
65. Tap Upload File to add a resource.
66. Review the file area below to see available files or the empty-state message.

Expected result

- The user can manage group resources and study materials from the file library.

Screenshot

13. Files / File Library screen

14. Calendar

Purpose: The Calendar page helps users view dates and monthly tasks.

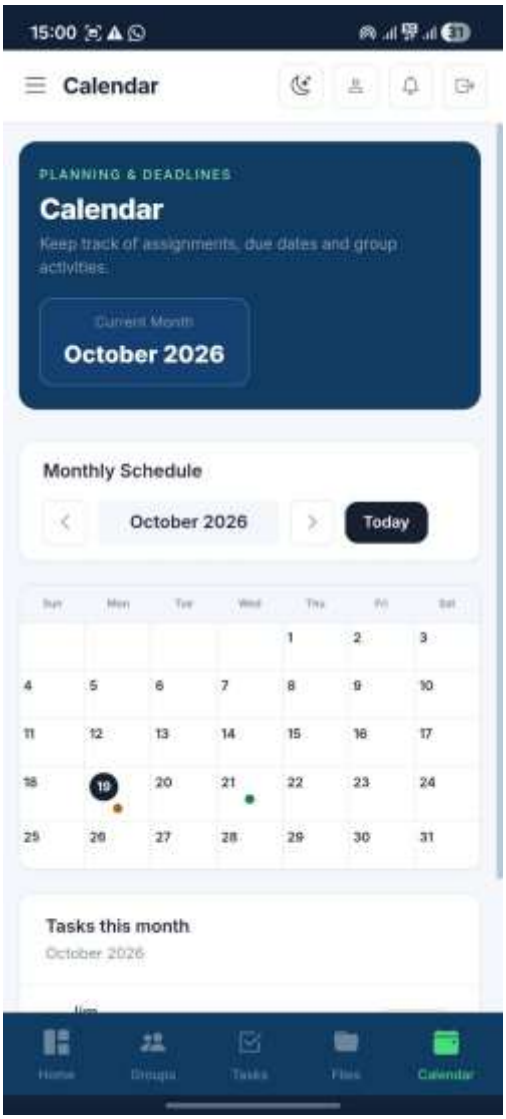

How to use this screen

67. Tap Calendar on the bottom navigation bar.
68. Review the current month shown near the top of the page.
69. Use the left and right arrows to change the month.
70. Tap Today to return to the current day.
71. Review the monthly calendar grid.
72. Scroll down to view the Tasks this month section.

Expected result

- The user can track dates, deadlines and monthly task activity.

Screenshot

14. Calendar screen

15. Navigation and Sign Out

The main mobile app pages can be opened using the bottom navigation bar. On most signed-in screens, users also see icons near the top-right corner for additional actions such as profile access, notifications, theme settings or sign out.

- Use Home to return to the dashboard.
- Use Groups to browse or open study groups.
- Use Tasks to manage assignments.
- Use Files to manage study resources.
- Use Calendar to view dates and deadlines.
- Use the sign-out icon when you want to safely exit your account.

Note: Always sign out after using the app on a shared device.

16. Help & Getting Started

Purpose: The Help section explains how to use LSC features and provides guidance when you need assistance.

How to open Help

73. On the Welcome screen, tap Help. You can use this option before signing in.
74. After signing in, open the menu icon at the top-left of the mobile screen.
75. Select Help from the menu when available.
76. Choose the topic related to the feature you want to understand.
77. Read the instructions and return to the app screen to continue.

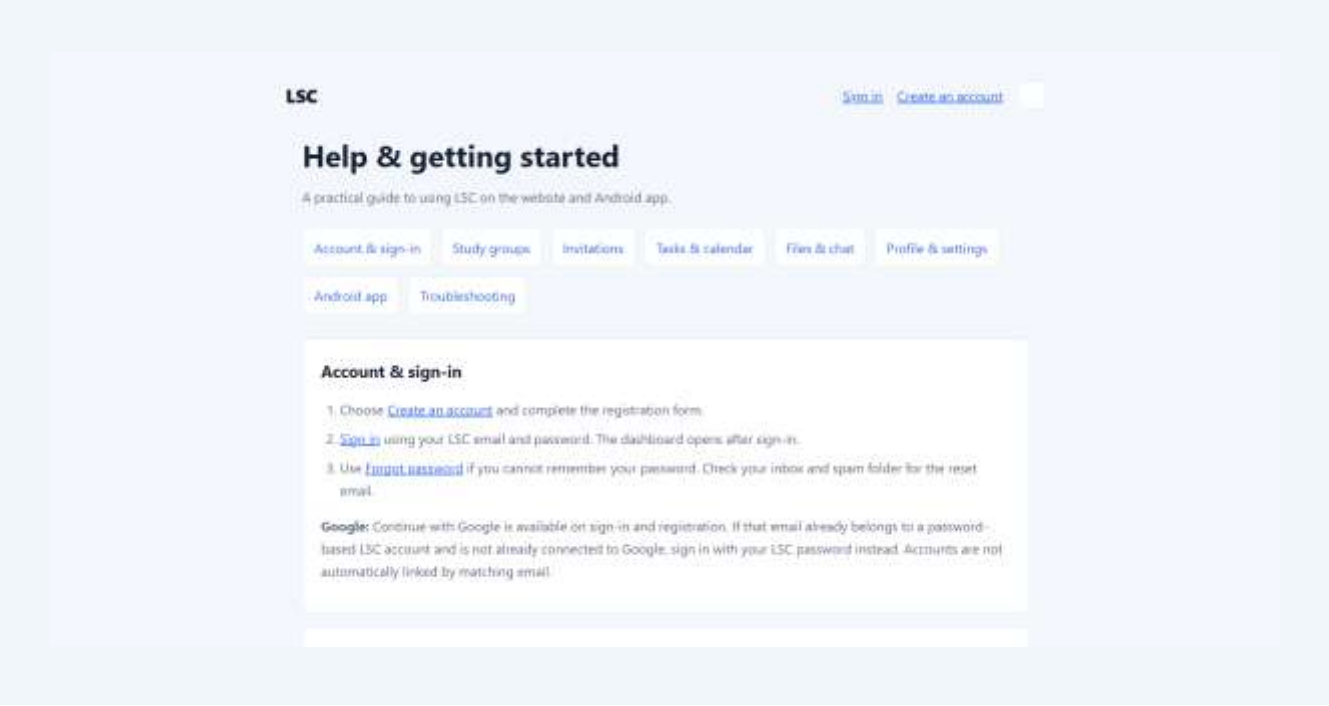

Topics available

- Account & sign-in: registration, passwords and Google sign-in.
- Study groups and invitations: joining, creating and inviting members.
- Tasks & calendar: tracking tasks and deadlines.
- Files & chat: sharing files and communicating.
- Profile & settings: managing personal details.
- Android app and Troubleshooting: mobile access and common problems.

Expected result

The user can find instructions for common actions without leaving the overall LSC experience.

Screenshot

17. Troubleshooting

Purpose: Use the guidance below when something in the LSC mobile app does not work as expected.

The app does not load

Check that mobile data or Wi-Fi is connected. Close and reopen the app, then try again. If the hosted service is unavailable, try again later.

I cannot sign in

Check your email address and password carefully. Use the eye icon to inspect the password. If needed, choose Forgot password? to request a reset link.

I cannot sign in with Google

Confirm that you selected the intended Google account. If your LSC account uses an email/password sign-in and is not linked with Google, try the normal Sign In option.

My password reset email is missing

Check the inbox and spam or junk folders for the registered email address. Confirm that you submitted the correct address.

I cannot join or open a group

Check whether it is a private group or whether a join request is still pending. Wait for approval where required.

I cannot invite someone

Open your group Members tab and check whether Invite people is available to your role. Confirm the recipient email address.

My task is missing

Open Tasks, set filters to All Groups and All Statuses, and check the relevant group and due date.

Files do not appear

Open Files and verify the selected study group. The library may legitimately be empty when no files have been uploaded.

Chat messages or attachments do not appear

Check the connection, confirm you are in the correct group and reopen the Chat tab. A new group may display No messages yet.

I cannot see notifications

Tap the bell icon or use the menu. If there are zero unread updates, there may be no new alerts.

When the issue continues

78. Take note of the page, the action you attempted and any error message.
79. Open Help and read the related guidance.
80. Report the problem to the project administrator or support contact supplied by your institution or project team.

18. Conclusion

This manual follows the LSC mobile app user journey, from the Welcome page and account access to study groups, communication, tasks, files, calendar, Help and troubleshooting.

The Help and Troubleshooting sections include dedicated spaces for mobile screenshots because these particular screens were not among the supplied mobile images.
